## EDUCATION

### Chitkara University

*Masters of Computer Application - 7.4*

08 2023 – 06 2025

Chandigarh, India

### Poddar international College

*Bachelor of Computer Applications - 8.0*

08 2019 – 06 2022

Jaipur, India

## COURSEWORK / SKILLS

- Data Structures & Algorithms
- SQL
- OOPS Concept
- Web Development

## EXPERIENCE

### Bebo Technologies

*Associate Software Engineer Intern*

10 2024 – Present

Chandigarh, India

- Developed Responsive web application using React.js, Redux and TailwindCSS
- Collaborated with the team to design and implement RESTful APIs using Django and Django REST Framework (DRF), ensuring seamless data flow between the frontend and backend
- Integrated JWT authentication in Django applications for secure user authentication and authorization.
- Deployed applications on AWS, utilizing services like EC2, S3, and RDS for scalable and reliable hosting.

## PROJECTS

### Ride Booking App | [React](#), [Redux](#), [Node.js](#), [Express](#), [MongoDB](#)

2025

- Built a Ride-booking app using MERN Stack, featuring real-time location tracking and Google Maps integration
- Implemented secure user authentication for riders and drivers (JWT-based authentication).
- Designed an intuitive UI with React and integrated Google Maps API for real-time location tracking..
- Created RESTful APIs for ride booking, fare estimation, and driver assignment..

### Study Notion (E-learning Platform) | | [React](#), [Redux](#), [Node.js](#), [Express](#), [MongoDB](#) 2024-Present

- Developed a full-stack e-learning platform that enables course creation, enrollment, and interactive learning experiences.
- User authentication (JWT-based) with role-based access (Student, Instructor, Admin).
- Course management: creation, purchase, and progress tracking. Payment integration using Razorpay for secure transactions.
- Cloudinary-powered media storage for course content. Interactive UI/UX with Tailwind CSS for a seamless experience.

### RealTime Chat App | | [Node.js](#), [Socket.IO](#)

2024

- Built a real-time chat application using React.js and WebSockets (Socket.io) for instant messaging.
- Integrated user authentication via JWT, enabling secure login.
- Stored chat history in MongoDB optimizing retrieval with indexing.

## TECHNICAL SKILLS

**Languages:** C++, JavaScript, Python

**Developer Tools:** VS Code, Postman, IntelliJ IDEA Ultimate

**Libraries/Frameworks:** C++ STL, React.js, Redux Toolkit, Axios, Mongoose, Express.js

**Technologies/Platforms:** HTML5, CSS3, Tailwind CSS, Node.js, Git, GitHub, Docker

## CODING PLATFORMS

- Solved 400+ Problems on [Leetcode](#). 
- Solved 100+ Problems across [GeeksforGeeks](#), [Hacker Rank](#) and [Coding Ninjas](#). 

## CERTIFICATIONS

- Introduction to Programming using Python - Coursera
- Web Development Master Course by - CodeHelp
